Charles Heald 1 Scholarship
James Carden 1 Scholarship
Andrew Wong 1 Scholarship

Three students achieved Outstanding Scholarship Awards indicating these students are ranked in the top 0.04% in New Zealand in their subject.

Our Year 11 IGCSE (Cambridge) results were particularly impressive.

St Paul's students once again excelled in the 2009 external end of year examinations. In the most demanding of NCEA courses, Level 3, **Jonathan Pullon** (Calculus and Music), **Jennifer Jin** (Chemistry), **Tim Ng** (Computer Studies) were our 'Centurions', gaining a perfect score of 100%. **Jonathan Pullon** was our top academic performer in the NCEA examinations while **Hayden Gutry** was our most outstanding student in the demanding scholarship exams. The most pleasing feature was that 34.2% of our Level Three (Year 13) students achieved NCEA with either a Merit or an Excellence endorsement. Another impressive statistic was that 98 of the 113 student Year 13 cohort (87%) achieved University Entrance.

Overall Statistics (% of the cohort who achieve at that Levels' qualification)		
	87% achieved University Entrance	22% above national average
Level 3	77%	25% above national average
Level 2	87%	21% above national average
Level 1	77%	14% above national average
Note: Almost half of the Year 11 cohort (Level 1) entered for the Cambridge English and Mathematics qualification. This impacted on the NCEA Level 1 results.
